Hey Brian,

This looks good, sorry I didn't get back sooner but I did forward the invite and agenda you sent.

I think the topic of the Marcellus Shale coalition is something we would want to learn more about at this meeting.

Thanks again for keeping us posted and organizing these meetings.

Cliff – Attached and copied and pasted bellow is the DRAFT agenda for the Sandstone consultation meeting for Thursday. Its similar to what we have done in the past. If you don't have any changes we will put it ot the calendar invite and send it out to the invited list as well.

There is one area we want to broach with you which pertains to a request we got from the Marcellus Shale Coalition which is an industry group, they want to know more about EPA's

tribal consultation policy and also what geographic areas the Seneca Nation of Indians is interested in. We have not shared anything with them but wanted to discuss how you would like EPA to respond to that request. We can discuss this more fully at the meeting on Thursday, but wanted to give you a brief heads up as to why that is on the agenda.
